Supporting and approving the Project Management Plan for the FY 2014 NAHASDA Grant Application Submitted by the Navajo-Hopi Land Commission Office for Implementation of a Comprehensive Housing Assessment and Housing Plan in the Former Bennett Freeze Area Covering Over 1.6 million Acres in the Western part of the Navajo Nation.

WHEREAS:

1. Pursuant to 26 N.N.C., Section 3: Chapter Certification and 11 N.N.C. Part 1, Section 10, the Coalmine Canyon Chapter is a duly recognized and certified chapter of the Navajo Nation Government; and,
2. Pursuant to 26 N.N.C., Chapter 1: Navajo Nation Chapters, Section 1., (B) Purpose; (1) & (2), the Navajo Nation Council delegated to Chapter Government authority with respect to local matters consistent with Navajo law, including custom and tradition and allows chapters to make decisions to govern with responsibility and accountability to community membership; and,
3. The Navajo-Hopi Land Commission Office submitted a grant application for Fiscal Year 2014 for Housing Assessment to develop a comprehensive Housing Plan Project for Future Housing Development within the Nine Chapters affected by the "Bennett Freeze"; and,
4. Since the lift of the Bennett Freeze, there is lack of partnership and coordination from existing housing agencies to provide Coalmine Canyon Chapter the technical assistance to develop a housing plan to provide safe, decent, sanitary and affordable housing for our community people affected by the Bennett Freeze; and,
5. The Coalmine Canyon Chapter recognizes and supports our Navajo people that were impacted by the "Bennett Freeze" for forty years that stopped all development in these communities and contributed to poor living conditions for many residents who chose to stay in the area without electricity, plumbing, clean drinking water and decent and sanitary housing.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Coalmine Canyon Chapter supports the Project Management Plan for implementation of a Comprehensive Housing Assessment and Housing Plan in the Former Bennett Freeze Area to gather necessary client and housing data and information, current housing conditions, GPS to take data points on maps, and etc., to solve the housing needs.
2. The Project Management Plan serves as a basis for future guidance and development for infrastructure, roads, housing, community and economic development and etc., with all pertinent

information and analysis into one document for each chapter that identifies land use suitability and capability, determination and designation of land use management zones, and development of management policies, objectives, responsibilities, guidelines and plan.

3. The Coalmine Canyon Chapter strongly supports and approves the Project Management Plan to address the housing needs.
